

1. Two responses to the Council (Open Streets and the second Tram one) have been submitted this month, attached below.
2. A response to 'Connecting our Cities etc' is needed next week and we can discuss on Monday. It's very much at the level of principle and I can outline some suggested main points on Monday drawn from our previous submissions.
3. Other news is that a decision on the London St crossing is expected in the next few weeks and I understand it is option 2 - which we favoured - which is to be recommended. This would be situated near the Drummond Place end and feature build-outs, which should act to calm traffic. Further details should be available soon. We favoured a central pedestrian 'island'.
