LOCAL TRAFFIC IMPROVEMENT PROGRAMME APPLICATION FORM

(Please note that the LTI Project Criteria Form is completed by Officers and is included for information or reference purposes only)

Project Location	Bellevue Crescent		
Applicant or Project Sponsor	New Town and Broughton Community Council		
New Application	✓	**Resubmitted Application**	☐
Date Submitted	23/01/2026	**Resubmission from previous LTI Year?**	Choose an item.

Background to Application **(***Please give some details of the potential project or timeline of issues / concerns over a period of time)*

Concerns have been raised over several years about the condition of the road surface on Bellevue Crescent. One local resident with impaired mobility has reported falling more than once due to the uneven road surface when accessing her car. There are a large number of potholes in the street but individually they do not meet the criteria for immediate repair. Our contention is that the cumulative impact of these pot holes requires attention. We recognise that the complete resurfacing of the street is beyond the scope of this programme but believe that remedial localised repairs would significantly improve the road surface for all users of this street not just pedestrians but also cyclists.

Issues & Opportunities **(***Please detail the issues experienced and what improvements the community hope may be delivered, e.g. what hazards or barriers to travel that you would like to have addressed)*

As noted there have been a number of reported accidents due to the condition of the road surface

Supporting Plan or Images	**Issues**	**Opportunities**
Click or tap here to enter text.	Poor road surface	Safer for pedestrians and cyclists

Who will benefit? *(Please give some information on would benefit from the proposed project – note the criteria form can offer examples)*

All pedestrians but especially those with limited mobility as well as cyclists. As there is a very active church and community centre on this street the footfall is high including in the evenings when due to limited street lighting the hazards of the road surface are less apparent.

Delivering Council Policies *(Please indicate which policies might be met from the proposed project – note the criteria form can offer examples)*

This project would ensure that the surface of this street is being maintained in a safe manner and allow major resurfacing to be postponed for several years.

Thank you for your project submission. This will be assessed against the project criteria to establish a priority score and rating within the budget available.

An update will be issued once the project submission window has closed, but further information or assistance can be provided by contacting the team on localtrafficimprovement@edinburgh.gov.uk.
