LOCAL TRAFFIC IMPROVEMENT PROGRAMME APPLICATION FORM

(Please note that the LTI Project Criteria Form is completed by Officers and is included for information or reference purposes only)

Project Location	Various New Town Streets		
Applicant or Project Sponsor	New Town and Broughton Community Council		
New Application	✓	**Resubmitted Application**	☐
Date Submitted	23/01/2026	**Resubmission from previous LTI Year?**	Choose an item.

Background to Application **(***Please give some details of the potential project or timeline of issues / concerns over a period of time)*

The road surface at the junctions (Abercromby Place/Dundas Street and Heriot Row/Howe Street) is in very poor condition creating a hazard for cyclists using the roads and pedestrians wishing to cross these junctions. Despite resurfacing over recent years on adjacent roads, the actual junctions appear to have been overlooked thus leaving a significant hazard.

Issues & Opportunities **(***Please detail the issues experienced and what improvements the community hope may be delivered, e.g. what hazards or barriers to travel that you would like to have addressed)*

The poor road surface represents a significant hazard for cyclists and pedestrians using these junctions. Localised repairs would address these concerns and ensure that the condition of the road is being properly maintained.

Who will benefit? *(Please give some information on would benefit from the proposed project – note the criteria form can offer examples)*

Cyclists and all pedestrians but especially those with impaired mobility or vision. Due to the proximity of local shopping/services and these streets being in a mainly residential area, these are very busy junctions with significant distances to cross. It is important that pedestrians are able to quickly cross these junctions and that the road surface is not creating additional risks.

Delivering Council Policies *(Please indicate which policies might be met from the proposed project – note the criteria form can offer examples)*

This work would assist in delivering the City Mobility Plan which seeks to improve the ability of residents to walk or cycle in the City.

Thank you for your project submission. This will be assessed against the project criteria to establish a priority score and rating within the budget available.

An update will be issued once the project submission window has closed, but further information or assistance can be provided by contacting the team on localtrafficimprovement@edinburgh.gov.uk.
